CAREERS

APPRENTICESHIP INFORMATION

Students interested in apprenticeships should be actively looking for one and applying now (**see links in this document for further information**). Some companies will be close to closing their application dates e.g. BMW - 20th February.

Be proactive and contact employers, attend careers fairs (take CV's and make sure to ask questions), send out CV's and a covering letter to employers, search regularly and don't give up. **You can use www.eclips-online.co.uk, password: Kingstone-1 to help you write a C.V. and Covering Letter.**

You can also use friends and relatives to help you search for local vacancies; they may know people who are interested in an apprentice but haven't yet advertised.

Be sure to have a back up plan and apply for colleges/training providers as well in case you are unsuccessful in getting an apprenticeship. You can then train as a plumber, carpenter etc.

If interested in the NHS, please visit www.stepintohenhs.uk. Also, check out the National Apprenticeship website (see link in left-hand column) and the Hereford Times as they also advertise vacancies.
